## Faucet echnology

### Excellence Quality

## ABOUT JALDHARA

Jaldhara, a name synonymous with elegance and innovation in the world of bath decor, faucets, and bathroom accessories.

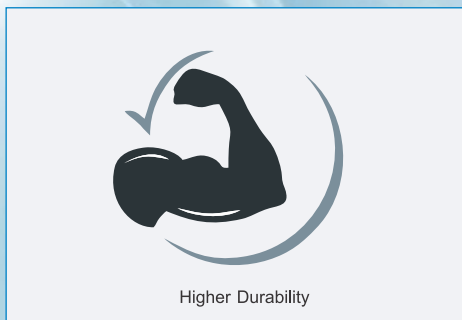

Established in 1991 under the visionary leadership of proprietor Devraj Chauhan, Jaldhara has quickly emerged as a trusted and recognized brand in the industry. Our commitment to quality, durability, and maximum comfort has earned us the trust of discerning customers worldwide.

## VISION

At Jaldhara, our vision is to transform ordinary bathrooms into extraordinary spaces.

We believe that the bathroom is not just a functional area but a sanctuary for relaxation and rejuvenation. Through our exquisite range of products, we aim to redefine bathroom aesthetics and elevate the bathing experience to a whole new level.

Higher Durability

**JALDHARA'S**<sup>®</sup>  
LUXURY BATH FITTINGS  
CHANGING THE WAY OF LIVING ●●●●●

## MISSION

Our Mission is to create innovative, stylish, and high quality bath decor solutions that cater to the diverse needs and preferences of our customers. We are dedicated to ensuring that every product bearing the Jaldhara name is not only visually appealing but also built to last. We are committed to offering maximum comfort and convenience through our carefully designed range of faucets and bathroom accessories.

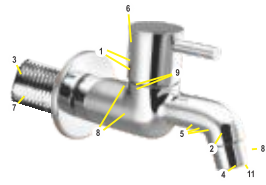

## HIGHER DURABILITY

We understand that bathroom fixtures and accessories need to withstand daily wear and tear. That's why we focus on durability in our product design. When you choose Jaldhara, you choose products that are not only beautiful but built to last, saving you both time and money in the long run.

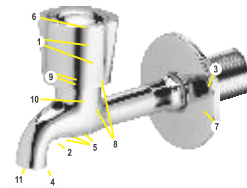

One of the major problems that the households face is the maintenance of taps. Even for a small problem you need to call a plumber and you end up feeling that the taps you purchase are too costly. But the problem will persist even with the leading brands because the water will always have dissolved particles in it and it will always clog the aerator resulting in low flow of water.

Jaldhara, a leading brand in quality taps brings you the solution. Along with technologically advanced, intelligent designs, Jaldhara brings to you "Maintain it yourself" taps. Let's learn how!

**1. LONG LASTING INTERNAL FITTING ASSEMBLY**  
Conventional but Half Turn

- Rising type . Less number of working parts than conventional one. Hence, less chances of wear & tear, easy to maintain/replace/repair.
- Transmission thread area (actual working area) duly lubricated with high grade engineering lubricants (silicon).

**8. SYNTHETIC RUBBER PARTS**  
Rubber parts

All rubber parts are made of synthetic rubber for better life & sealant.

**Double rubber sealants:**

- For protection of transmission thread from dirt, particles, salt, iron or other impurities in water for enhanced life of the valve.

**LEARN HOW TO CLEAN THE AERATOR**

To clean the aerator first open the housing by unscrewing it clock wise, take out the aerator.

Wash it with water, clean it and simply attach it again. Here you go steady high flow of water surely you save a few bucks here.

Clean taps with a little soap and moist cloth only, then simply rinse off and wipe dry. You can avoid lime spots(white spots) by drying the fitting each time it is used. After drying you can apply a coat of was polish to protect the surface from settlement of water for a considerable period of time.

Firstly open the ABS cap hiding the allen screw on the tap handle.

**LEARN HOW TO SOLVE THE DRIPPING TAP**

Once you remove the tap handle you will find the ceramic disc cartridge. Unscrew it with the help of a spanner by turning it anti-clockwise.

Now remove the rubber washer at the bottom of the cartridge.

Now put the ceramic discs and rubber washer back to its place and fit the handle back on the tap.
